

The map displays the state of Virginia divided into counties. The legend indicates four categories of elevated blood lead levels:

- White box:** 0 -- 4
- Yellow box with dots:** 5 -- 10
- Orange box:** 11 -- 21
- Dark red box:** >21

Counties shaded yellow (5-10 ug/dL) include Fairfax, Arlington, Loudoun, Stafford, Culpeper, Albemarle, Charlottesville, Shenandoah, Rockingham, Rappahannock, Spotsylvania, and Dinwiddie.

Counties shaded orange (11-21 ug/dL) include Loudoun, Stafford, Culpeper, Albemarle, Charlottesville, Shenandoah, Rockingham, Rappahannock, Spotsylvania, and Dinwiddie.

One county, Loudoun, is shaded dark red (>21 ug/dL).

A scale bar at the bottom right shows distances from 0 to 120 miles. A compass rose at the top left indicates North (N), South (S), East (E), and West (W). Major cities labeled include Alexandria, Arlington, Fairfax, Loudoun, Stafford, Culpeper, Albemarle, Charlottesville, Shenandoah, Rockingham, Rappahannock, Spotsylvania, and Dinwiddie.

Note: An elevated blood lead level is  $\geq 10$  ug/dL. Only children determined to be at risk are required to be tested for lead poisoning.
